Saves you Time

On-demand access to information for your Community reduces phone calls, emails & visitors at the front desk - and you'll need minutes not hours!

Saves you Money

Reduce your printing, reprinting and distribution costs - have you checked lately what this is really costing?

Easy to Use

Membo COMMUNITY is easy to set up & use, and we'll provide all the support you need for as long as you need it.

Highly targetted, effective Communication

Instant notifications put your information to the hands of some or all of your Community members RIGHT NOW!

Start the new Financial Year off with a BANG!

Begin your FREE Trial by 30 June to take advantage of our 90-day Offer!

Membo COMMUNITY

Easy for You || Easy for your Community

Up-to-date information that your Community can access from Anywhere, Anytime, on Any Device, and without the need to contact Anyone!

Here's what's Included:

Immediate Notifications & Alerts

Reduce the need to ring around or knock on doors. Send standard notifications for free to App Users, and SMS messages to those without the App. It's easy to notify one, some, or everyone - in minutes.

Diary/Schedule of What's happening & When

The diary makes it easy for you to enter one-off and recurring events eg weekly bin collection, monthly campfire get together, what's happening locally and when.

Noticeboard

Instantly display your Notices with "from" & "to" dates. No need to put paper Notices up or take them down. No problems getting Notices up on time. No more complaints about timely access to information.

Viewable Documents On-Demand

Reduce the need to generate printed copies for everyone, and no more re-printing because there was a mistake or information has changed. Visitors and Residents won't have to check with you if they have the current copy because what you send is always up to date eg Plans, Guides, Health Department protocols.

Optional User Incident Reports

Option for Visitors & Residents to take a quick pic and send a short report from the App to your desk.

Check it out NOW! Install the App using our Demo Account Credentials overleaf.
